

# Welcome to the Lone Wolf Association Cloud

*Value for you and your members that you can't get anywhere else.*

These days, agents expect more than ever from their associations, especially when it comes to technology.

They already get transaction management and digital storage through their national member benefit—and we're here to help you build on that value with add-ons made for the solutions used by nearly 600,000 agents today.

## *Here's what you can give your members:*

### **YOUR FORMS, YOUR WAY.**

Have your own essential forms? We'll work with you to transform them into a digital library your members can access whenever, wherever.

### **INDUSTRY-LEADING ESIGNATURE.**

It's real estate's favorite for a reason. Give members and clients a digital way to sign with the only tool built for their transactions.

### **AN APP FOR TRANSACTIONS.**

Help members access their transactions on any device with our mobile app, custom-built to speed up transactions.

### **DIRECT CONNECTION TO YOUR MLS.**

Goodbye, duplicate data entry. Help your members cut down on manual input with a direct data feed from your MLS to their forms.

*So let's talk about what you need.*

Check out how each of these add-ons works for your members in this **VIDEO**, and reach out to us at [enterpriseteam@lwolf.com](mailto:enterpriseteam@lwolf.com) for more information!
