

# DIGITAL TITLE ORDERS

Who is

With over **30 years of experience**, Lone Wolf is the top real estate tech company in North America. Lone Wolf's leading transaction management solution, Lone Wolf Transactions, is provided to **over 1.4M real estate agents** in the US through dozens of state and local associations, as well as nationally, as a free member benefit

With an integration between Lone Wolf Transactions and your title company, every single one of these real estate agents has access to a groundbreaking new feature to send and update title orders within platforms they already use: Digital Title Orders.

## About Digital Title Orders

- Lone Wolf shares a mutual client base with your title company that is connected through Digital Title Orders.
- Directly within Transactions (*zipForm Edition* or *TransactionDeskEdition*), real estate agents can:
  - Digitally **submit title orders with one click**
  - Securely send documents, data, and notes straight to their title agent
  - Automatically sync secure, updated information
  - Track their title order status

## What does this mean for you?

- ✓ A simpler process means less time spent on each order!
- ✓ Market exposure means more orders from your current clients... and opportunities for new ones
- ✓ No more reentering data, redundant emails and phone calls, chasing status updates, and unsecure document transfers
