

THINGS YOU DIDN'T KNOW

LONE WOLF'S DIGITAL FORMS

1

They can be signed on a mobile device or computer anytime, anywhere via our native eSignature solution or integration with DocuSign (giving agents choice in their solution).

2

It's easy for clients to sign and share documents, and we automatically place all the signing blocks for standard Association and MLS forms during the design process—saving time when generating offers or counter offers.

3

State and local associations provide our design team with the latest form updates, so agents know they're always using the latest compliant forms.

4

We work closely with many MLSs to offer an integrated solution so that agents can either create "partial listings" with their MLS vendor and/or automatically start a transaction via Transactions (zipForm Edition and TransactionDesk Edition) right from within their MLS.

5

Non-standard Association/MLS forms such as customized checklists, affiliated business disclosure statements, and net sheets can be customized to work within an agent's Transactions solution.

6

Lone Wolf has over 30 years' experience designing real estate forms.

7

Our forms have over 98% market coverage in the U.S. and 100% in Canada.

8

Lone Wolf's digital forms are the starting point to a completely connected digital experience, helping agents and their brokerage from lead to close and beyond.

9

Forms are fully integrated into Transactions, putting all the tools needed to get a deal started, signed, and closed in one system. Say goodbye to working in multiple windows with disconnected tools.
