

SECURE COLLABORATION FROM ANYWHERE

Prevent fraud and protect your clients with zipCommunity—the frictionless and secure collaboration tool for you and your clients, directly within Transactions (zipForm Edition)

Invite and control
who has the access and editing rights

View 'change history'
to keep track of any and every change done

Maintain transaction history
with a thorough audit trail and a permanent record archive

Collaborate securely
to give your clients peace of mind so they can focus on the transaction process

Create, collaborate, and close faster... and let zipCommunity take care of the security!
