

# MEET YOUR NEW FORMS EDITOR

## Unrivaled form + function

Here's what's new with real estate's favorite forms editor.

### A modern interface

#### ***Completely redesigned.***

The new interface makes it simpler than ever to find, view, fill, and share your documents. Bonus: Enhanced resolution means you don't have to zoom in to read the details in your docs.

### A complete workspace

#### ***Gone are the days of filling out forms one at a time.***

With the new workspace, you can fill out multiple forms simultaneously—and always see transaction info, contact details, offer info, and more—in the same place.

### Intuitive forms

#### ***The new forms editor boasts a wide range of AI-powered time-saving features.***

Its intuitive technology fills out forms for you—auto populating info from your parties, listings, and offers. Its intelligent technology makes suggestions based on your past forms.

### New clause + markup tools

#### ***The new clause variable drop-down helps you add clauses and personalize for the client in just a few clicks.***

Plus, new markup tools let you set default settings for quicker markups in the future.
